COMMUNICATION STRATEGY 2019

- Better visibility and more information for members via:
 - Review of the current communication tools employed by ECG
 - Increased presence on social media \checkmark
 - Improved ECG News
 - Daily updates already available!

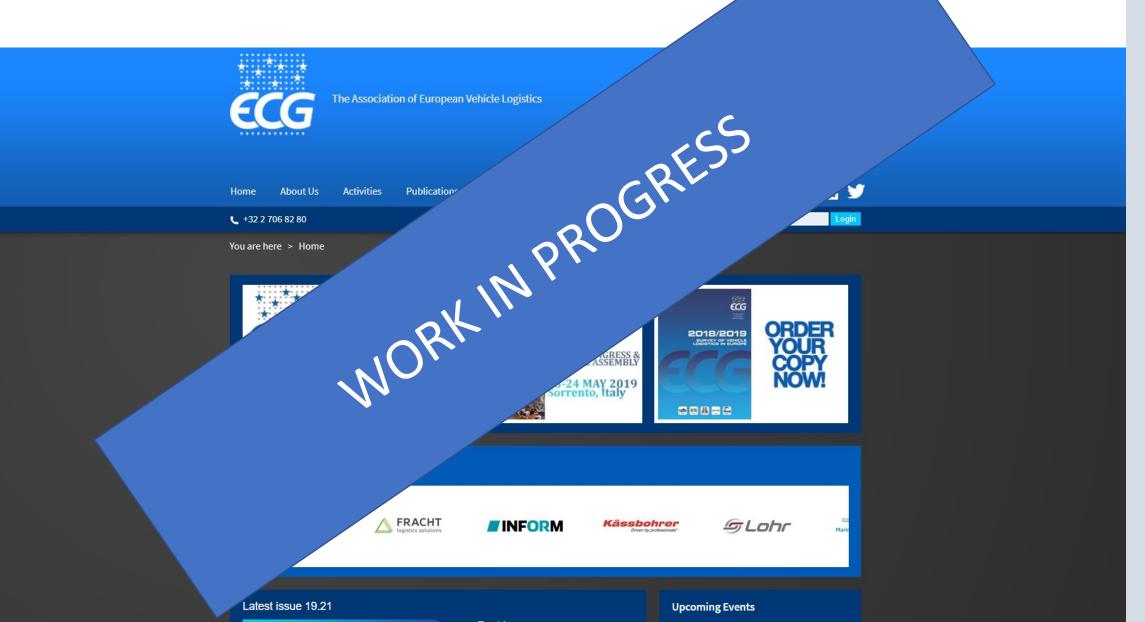

ECG WEBSITE REDESIGN

PROJECT CAESAR

- Great OEM-LSP co-operation to improve efficiency & capacity
- Goal of the project is to generate an industry standard for forecasting for both the LSPs and OEMs
 - Realization and implementation is up to all of us!

PROJECT CAESAR

- Members and OEMs to test version 1.0 and give feedback to ECG
- Version 2.0 is up to all of us
- ECG will keep the master version

SULPHUR CONTENT IN MARINE FUELS

 ECG Briefing paper published in October 2018

SULPHUR CONTENT IN MARINE FUELS

- Global Sulphur Cap 2020
- Effective from 1 January 2020
- Vessels trading outside the current Emission Control Areas (ECAs) can only burn bunker with 0.5% Sulphur content
- This is a game changer and 70,000 + vessels globally will be affected
- Different compliance methods
- Regardless of compliance method, there will be cost implications
- Who will cover the additional cost?
