**ESPOrg**

European Secure Parking Organisation

# Who is ESPORG?

ESPORG was created in 2010

Our aim is to build a network of safe, secure and connected parking areas

We already have 70 members in 12 countries

We work with independent third party certifiers

**ESPORG**

European Secure Parking Organisation

# What do we do?

**EUROPEAN SECURE**  
PARKING ORGANISATION

We offer  
**policy**  
support at  
local and EU-  
level

We provide  
advice and  
assistance for  
**setup and**  
**development**

We help our  
members  
with the  
**operation of**  
**SSTPAs**

We provide  
**technological**  
and **financial**  
**solutions.**

## Survey

- Drivers
- Transport companies
- Shippers
- Insurance companies

## New standard

- Replaces all other standards
- Will be managed by the EU
- 4 security levels and basic service level

## Gap analysis

- High-resolution mapping
- Supply and demand
- Gaps
- Basis for EU-wide rollout

## API

- Digital needs
- Booking
- Payment
- Route management

## Manual

- For users, operators and authorities
- Support with setup and business planning
- Showcases

# Flashlight on the standard for SSTPAs

- **PLATINUM**  
SECURITY LEVEL
- **GOLD**  
SECURITY LEVEL
- **SILVER**  
SECURITY LEVEL
- **BRONZE**  
SECURITY LEVEL

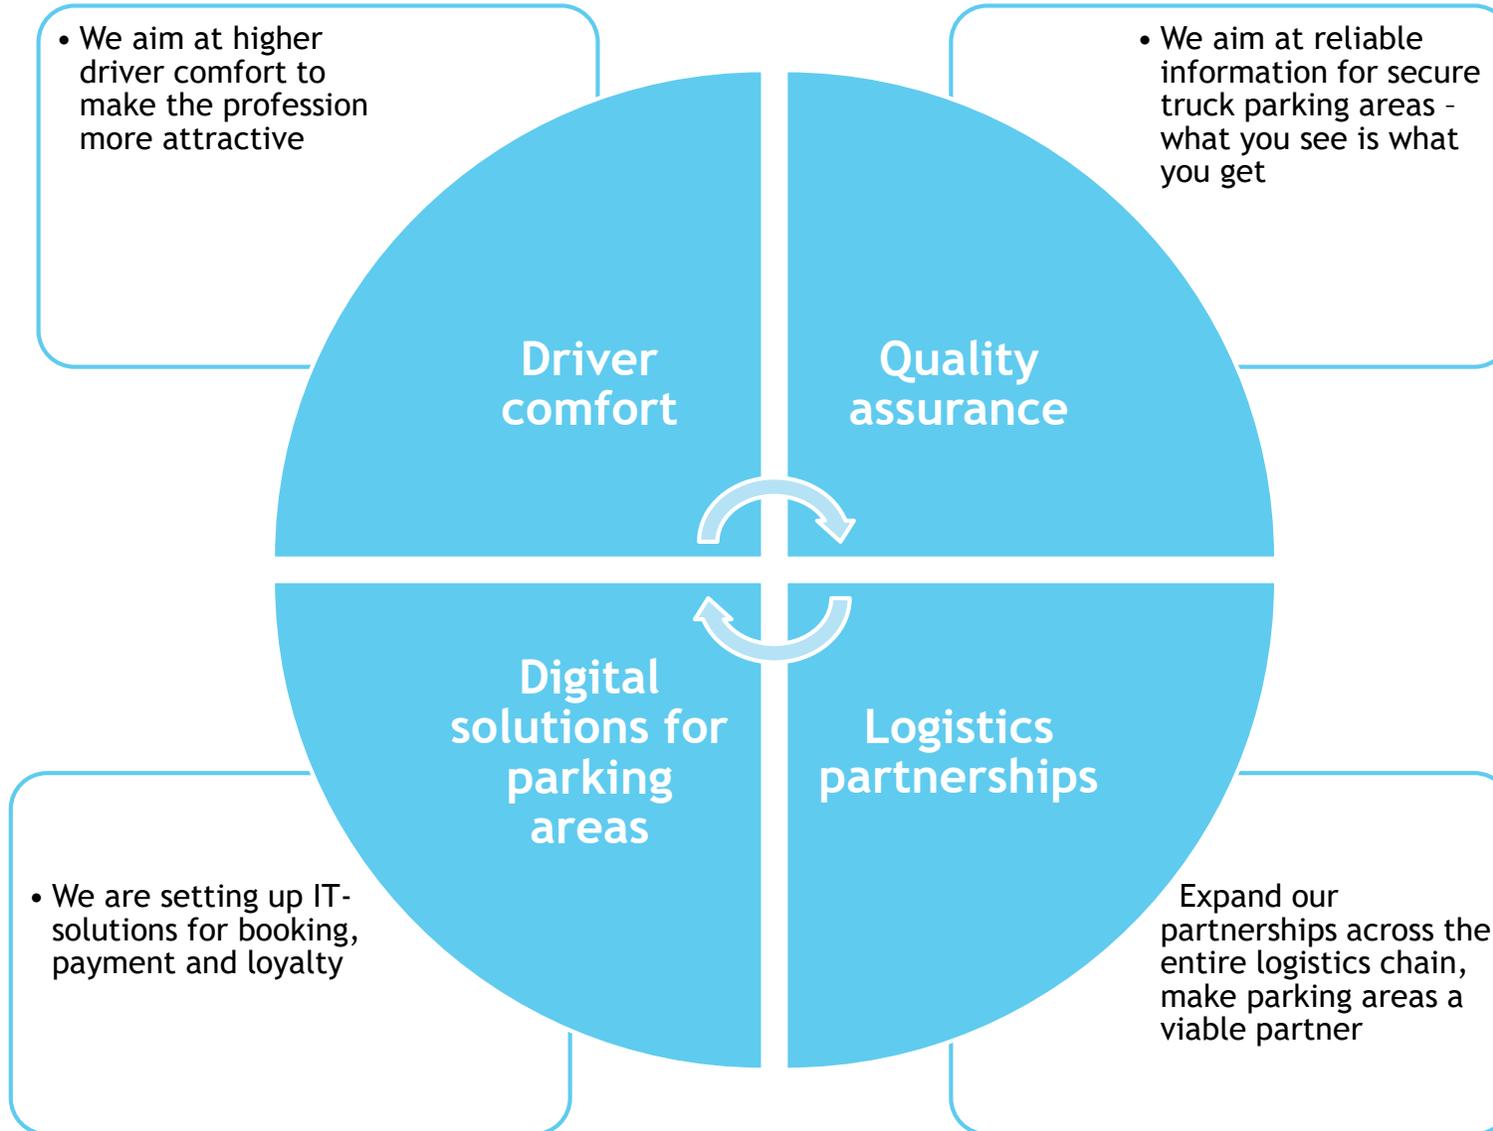

The European standard for safe and secure truck parking areas consists of 4 security levels. These levels build on one another. The security level is shown by indicating if the parking area has a Bronze, a Silver, a Gold or a Platinum level.

All security levels must be combined with a uniform common set of basic service requirements.

The security and the service requirements are audited by accredited independent third-party audit bodies. This ensures reliability and trustworthiness for the transport sector.

# Our goals

**EUROPEAN SECURE**  
PARKING ORGANISATION
