## Monthly Roundup

**June 2022**

### Digitalisation

In 2021 ECG started a joint project with [Odette International](#) on the development of a **standard for the VIN label** in the finished vehicle supply chain, which will be based on ECG's own [recommendation on VIN labels](#). The discussions will continue in the course until September where the recommendation is expected to be published.

The strategic project on **Digital Vehicle Handover** will soon continue with a new scope and objective. More details will come after the summer recess.

The Digitalisation Working Group held a brainstorming session on new objectives and sub-groups for the years to come on 28 June in Brussels. We had a very good turnout with more than 20 people present in person from OEMs, LSPs, IT companies alike and around 10 people online. The breakout groups discussed several possible new directions that the DWG can take in envisaging the challenges the FVL sector is facing. More information on this will be disseminated in the course of July to the members of the group.

With any enquiry on this Working Group or its sub-groups, please contact [Szilvi Kiss](#).

### Health & Safety

We do not have any updates at the moment! Please check last month's update and for more information, or to join the group, contact [Andreea Serbu](#).

### Maritime & Ports

The next meeting will be on 24-25 October at the Port of Antwerp Bruges. For more information or to join the Working Group please contact the [ECG Secretariat](#).

### Quality

Many translations of the recently published Operations Quality Manual (OQM) for Cars and LCVs, version 9, and the OQM for Commercial Vehicles, version 2, have already been created and are available on the ECG website for all interested parties. Further translations are in the pipeline and will be published in the course of July-August.

There is no date set for the next Quality Working Group meeting. It will most probably be held in Q4 2022.

In case you want to join this group please contact [Szilvi Kiss](#).

## **Sustainability**
