Remark: Prior to 2022, all JAIF and Odette messages have been developed according to Version 3 of ISO 9735 “EDIFACT Application Level Syntax Rules” but from May 2022 the only valid version of ISO 9735 is Version 4 and all UN/EDIFACT based messages must conform to this version.

JAIF and Odette recommend the application of ISO 9735 Version 4 Part 11 which allows the creation of a payload compliant to Version 3 and requires only minimal amendments in service segments.

For further details, please refer to Odette document OS11, “Structure of an EDIFACT Interchange”.
